

CLIENT BROCHURE

One system. Every service moment.

Cullinos is the restaurant operating system for POS, kitchen, floor, online orders, and back office — built for India.

Cullinos

Restaurant Operating System · by Rkyves
cullinos.com · Mumbai, India

WHY CULLINOS

Your food business, running as one

Stop juggling separate tools for billing, kitchen tickets, QR ordering, and reports. Cullinos connects cashier, kitchen, waiter, guests, and owners on one platform — with GST billing and offline-ready POS & KDS.

GST-READY

India billing built in

CGST, SGST, and IGST on every invoice — not bolted on later.

ALWAYS ON

Offline POS & KDS

Local Gateway keeps service moving when the internet drops.

GROW READY

One outlet to chains

Same platform from a single cafe to multi-brand franchise.

What you get

Point of Sale

Touch cashier, holds, takeaway, GST receipts, Razorpay-ready payments.

Kitchen Display

Live KOTs, station routing, and customer Order Display boards.

Waiter & Tables

Floor ordering, QR table sessions, and live table maps.

Online & QR

Branded storefront and scan-to-order — menu synced from Admin.

Back office

Menu, inventory, recipes, staff, loyalty, delivery, reports, billing.

Enterprise

Multi-outlet KPIs, stock transfers, franchise, hospitality add-ons.

Built for your vertical

Restaurants
