PRODUCT OVERVIEW

What Cullinos is — and everything we offer

A complete guide to the Cullinos Restaurant Operating System: apps, features, Guest marketplace, aggregators, verticals, and plans.

Cullinos

Restaurant Operating System · by Rkyves
For decision makers · cullinos.com · 2026

THE PRODUCT

Cullinos is your food business OS

Cullinos is a multi-app platform from **Rkyves**. One backend powers POS, kitchen displays, waiter floor service, guest QR/online ordering, the Cullinos Guest marketplace app, owner Admin, multi-outlet Management, and aggregators — so every role works from the same live data.

"One login for cashier, kitchen, online orders, Guest app marketing, production, and reports."

GST + Razorpay + MSG91 built in. Scales from a single counter to hotel and franchise networks.

The Cullinos apps

App	Who uses it	What it does
Admin admin.cullinos.com	Owner / manager	Menu, staff, inventory, purchasing, central kitchen, loyalty, delivery, aggregators, reservations, Guest app marketing, reports, billing, Portal POS
POS pos.cullinos.com	Cashier	Counter & takeaway billing, holds, shifts, GST receipts, payments (browser + Windows desktop)
KDS kds.cullinos.com	Kitchen	Live kitchen tickets; Order Display (CDS), promo playlist, receipt modes (browser + desktop)
Waiter Cullinos Waiter (Android)	Floor staff	Table map, table-side orders, QR guest sessions
Customer order.cullinos.com	Guests (web)	QR dine-in, online storefront, kiosk (guest checkout; optional OTP login)
Guest app Android · guest.cullinos.com	Consumers	Marketplace discover, outlet order, reorder, push, loyalty wallets
Management manage.cullinos.com	Multi-outlet ops	Network KPIs, outlet comparison, stock transfer, franchise
Super Admin platform.cullinos.com	Rkyves	Tenants, plans, marketing CMS, Guest banners/push, platform config

Feature catalogue
